IMSA BULLETIN GT #10-01

To: All Patrón GT3 Challenge by Yokohama Drivers/Entrants

From: Mike Simons, Series Manager

Date: 17 February 2010

Re: Driver Weight

11.15.2 Driver's Weight

Drivers must be present at scrutineering at the beginning of the first event with all required racing equipment to be weighed. This Official Weight will be rounded up to the next whole kg, for example if a Driver and required equipment weighs 92.3 kg, the recorded weight will be 93 kg.

Once IMSA has recorded a Driver's Weight, this weight will then become the Official Weight. This Official Weight will be used in Scrutineering for this and all subsequent events. The Official Weight will not be changed at anytime after the start of an event. However, a Driver may request to be reweighed at the beginning of an event and a new Official Weight will be recorded for the next event. IMSA may require a driver to be reweighed at any time.

Cars will be temporarily ballasted (supplied by IMSA in the technical area) to the Driver's Official Weight for all technical inspections during an event and Drivers will not be required to be present for any technical inspections.
